

Question 1 of 40

Which ball has the largest volume?

Question 2 of 40

In this computer game, the spaceship is moved by the keyboard direction keys.

If the  and  keys are pressed at the same time, in which direction will the spaceship go?

Question 3 of 40

Jaya has the following blocks in her bucket.

She takes a block out of her bucket without looking.

What is the chance of Jaya choosing a cube?

impossible

unlikely

likely

certain

Question 4 of 40

Here is a sequence of objects.

What object must  be?

Question 5 of 40

Zara used this abacus toy to represent a number.

What is Zara's number?

69

96

609

906

Question 6 of 40

Place the following months in the order that they occur during the year.
Start with the earliest month and finish with the latest month.

earlier

later

Question 7 of 40

Which shape is **not** used in this drawing?

☐

circle

☐

square

☐

triangle

☐

rectangle

Question 8 of 40

The number in each square is equal to the sum of the numbers on the two squares it rests on.

What must **?** be?

☐

12

☐

16

☐

20

☐

23

Question 9 of 40

$$5 - \triangle + \square = 9 + \triangle - \square$$

Click on the row of the table that makes the number sentence true.

What must **?** be?

☐

15

☐

18

☐

22

☐

24

This solid is made from stacked cubes.

How many cubes make up this solid?

- ☐ 14
- ☐ 8
- ☐ 7
- ☐ 6

Ying arranged some bears in a pattern.

Which of these was Shape 4?

Harry drew three shapes on grid paper.

Move the shapes into the boxes below ordering them from the smallest area to the largest area.

smallest area

largest area

Harry is reading a book with 65 pages. He read the first 7 pages on Monday and 3 times as many pages on Tuesday.

How many pages does he have left to read?

28

37

48

55

Tim, David and Amy picked some apples.

David picked 3 apples. Amy picked twice as many apples as David picked. Tim picked 3 more apples than Amy.

Which graph shows the number of apples they each picked?

Question 16 of 40

Today is Sunday 14 June.

June						
Su	Mo	Tu	We	Th	Fr	Sa
	1	2	3	4	5	6
7	8	9	10	11	12	13
14	15	16	17	18	19	20
21	22	23	24	25	26	27
28	29	30				

July						
Su	Mo	Tu	We	Th	Fr	Sa
			1	2	3	4
5	6	7	8	9	10	11
12	13	14	15	16	17	18
19	20	21	22	23	24	25
26	27	28	29	30	31	

What is the date of the fifth Tuesday after today?

☐

30 June

☐

7 July

☐

14 July

☐

21 July

Question 17 of 40

Arun wants to use all of these shapes as the faces of a solid.

Which solid can Arun make?

☐☐☐☐

Question 18 of 40

Lee is thinking of a 3-digit number.

She gives the following clues:

- My number is between 500 and 600.
- The units digit is 3 more than the tens digit.
- The sum of all three digits is 20.

What is Lee's number?

☐

558

☐

569

☐

587

☐

596

Dedi put three of his toys in order from lightest to heaviest.

lightest

heaviest

Which one of these could be true?

Audrey is looking at the trolley of trays in her classroom and she sees Rex's name on his tray.

From Rex's tray, Audrey's tray is 2 trays down and 1 tray to the right.

Click on the tray that is Audrey's.

This is Lin's water bottle.

Lin drank half of the water.

Which picture shows Lin's water bottle after this?

Mia had this dot-to-dot picture.

She joined the dots in order from 1 to 6.

Which of these shows what Mia drew?

Question 23 of 40

In each triangle, the numbers at the corners are used to calculate the number inside the triangle.

What must ? be?

0

1

2

3

Question 24 of 40

Ravi is 10 years and 4 months old.

Arun is 7 years and 5 months old.

How many months older than Arun is Ravi?

months

Question 25 of 40

Bill shot 10 arrows at this target board. Every arrow hit the board.

- 3 arrows hit the 5-point area
- 4 arrows hit the 3-point area
- no arrows hit the 1-point or 4-point areas.

How many points did he score altogether?

10

27

33

35

Question 26 of 40

Melanie has the following activities planned for the day.

Activity	Time
