

Past Papers 2021 Science Paper A - Answer Sheet

Question Number	Correct Answer	Reporting Strand	Descriptor
1	D: It has dents on its surface.	Observing & Measuring	Identify the feature that Phobos has in common with the Moon
2	top right straw	Reasoning & Problem solving	Determine the force that makes a windmill spin in a particular direction
3	C: $Y \rightarrow Z \rightarrow W \rightarrow X$	Interpreting	Sequence the stages in the life cycle of a living organism
4	A: wait to see which one pops first	Investigating	Identify the next step in an investigation about bubbles
5	C: iceblock	Predicting & Concluding	Determine a change that is reversible from a series of photographs
6	A: cassowary, bird with the longest legs	Predicting & Concluding	Draw a conclusion about birds based on photos
7	D: Thursday	Interpreting	Retrieve information from a table about weather
8	B: 2; D: 4	Observing & Measuring	Compare the volumes of liquids in different containers
9	A: Lemon juice stops the cut surface turning brown.	Investigating	Explain the tabulated results of an investigation
10	Sun, bug, leaf, camera, Rob	Reasoning & Problem solving	Determine the arrangement of objects in a photo
11	B: 7	Observing & Measuring	Measure the length of a cutting blade using a ruler
12	stern, bow, forwards	Interpreting	Determine the direction that a rower and oars move from a series of diagrams
13	third row - Ali, Jay, Ned, Mel	Reasoning & Problem solving	Determine the order of a series of actions based on the final product
14	B: It was not a fair test because the amount of water was not the same in each beaker.	Investigating	Explain why a given investigation is not fair
15	D: Birds eat tadpoles and mosquito fish.	Interpreting	Interpret a graphic representation of a food chain

Past Papers 2021 Science Paper A - Answer Sheet

Question Number	Correct Answer	Reporting Strand	Descriptor
16	C: the water level is horizontal	Predicting & Concluding	Predict a simple effect caused by a given change
17	D: 3	Observing & Measuring	Calculate a total volume in a given scenario
18	C: 25 metres	Reasoning & Problem solving	Determine the height of a tree based on a diagram and instructions
19	D: Earth mostly contains hot materials that flow.	Interpreting	Interpret information in a labelled diagram
20	try to eat - living flies...; not try to eat - dead moths..., living mosquitoes, adult ducks	Reasoning & Problem solving	Determine what a frog will try to eat based on the results of an investigation
21	B: 6:50 am	Predicting & Concluding	Draw a conclusion based on data given in a table
22	changed - the type of thread; measured - the breaking weight	Investigating	Identify the dependent and independent variables from a table of results
23	third row - toy car, plant, cat	Predicting & Concluding	Identify the differences between objects to complete a flowchart
24	A: bedroom 2	Predicting & Concluding	Identify a location using a floor plan and spatial reasoning
25	lamp P, lamp R, lamp Q	Reasoning & Problem solving	Use diagrammatic results to order the brightness of lamps
26	6	Observing & Measuring	Count tree rings to measure a period of time
27	zone 1 - sun never rises; zone 2 - short days; zone 3 - long days; zone 4 - sun never sets	Reasoning & Problem solving	Determine variations in length of day using given information
28	C: It turns slower in an anticlockwise direction.	Reasoning & Problem solving	Deduce how a gear will turn based on a diagram
29	B: 1, 4, 3, 2	Investigating	Order the steps of an investigation
30	Cilla, Helen, Preeti, Sally	Interpreting	Order hens into a pecking order based on a table of results
